

# ENGINEERED EXPRESS PROGRAM

- **Quality, flexibility and versatility**
- **Economical control solutions**
- **24-hour quote response**
- **3-4 week build-to-ship**
- **Multiple pump applications**

Our Engineered Express Program is designed to offer customers an economical control solution on lightly-engineered control panels. We are committed to provide 24-hour quote turn around and because the program utilizes inventoried components, released orders are shipped in 3-4 weeks.
